Project: Working with a Mock Client

Part 1

Project Listing

Sample Project Listing #1:

Web Development

Web application development support needed for healthcare application.

Posted 2 hours ago

Hourly: \$35.00 - \$65.00 Based on experience.

Project Time: 3 months, 25 hours a week.

Project Description:

We are a web development company working with a healthcare client looking to connect patients directly with their doctors. We need someone to be able to take PSD mockup files from our designer and convert them into custom code using HTML, CSS, and JavaScript. We have not decided on which JavaScript library to use, but will be open to working with the one you're most familiar with. We have the designs for 10 pages and will need them to be completed in 3 months. We are open to working with all levels of experience, but the pay will be adjusted based on your experience.

Part 2

Expression of Interest

Expression of Interest

Write an initial expression of interest (EoI) to the client:

- Now that you've understood what the client is asking for, it's time for you to reach out to them.
- Write out an EoI message addressing their requirements as well as how you can help them.
- This message will be their first impression of how you communicate with them, so it is good to be professional.

Expression of Interest (Provided)

Which Sample Project Listing did you select to respond to?

Answer: sample project listing #1

Please type your initial response to the client below:

Expression of Interest:

Hey – happy to help with making your web app – looks like you need to get a web application for healthcare developed on (HTML , CSS and JavaScript), by using the PCD mockup files which are 10 pages . I'm familiar with the (angular) library regarding java script , so this will be my using library in the project, I'm using this library because it has a lot of advantages like Effective Cross-Platform Development , High Quality of the Application , Improved Speed and Performance, Faster Development Process, Readable and Testable Code, Efficient Problem-Solving Patterns and it has a verity of options to use, I am web developer with 1 year of experience with 20 clients in Africa and Europe , I have made web sites pages with different specs and web application using JavaScript , HTML and CSS and I had received a very good responds from the clients I worked with in my pervious
